Experience

Lattice
Senior Software Engineer Jun '26 - Present

Alias Intelligence
Staff Software Engineer Aug '23 - Jun '26
Software Engineer Mar '22 - Aug '23

- Designed and delivered core product features including interactive dashboards, a dynamic form builder, and prompt engineering workflows for AI applications.
- Led a full-stack platform rewrite (React, Tailwind, shadcn/ui, Node.js), transitioning from a Java monolith and RDS to a serverless, event-driven architecture (AWS Lambda, DynamoDB), improving scalability, reducing latency, and enabling deeper AI integration.
- Led IT support operations, ensuring reliable day-to-day technical performance across the organization and minimizing operational disruptions.

Open Lending
Junior Software Engineer Jul '19 - Mar '22

- Contributed to the migration of the insurance claims module from a Java monolith to microservices, integrating a modern Angular frontend.
- Developed an internal tool, LP Tools, to securely decrypt PII data for the risk department and dynamically facilitate data transfers between databases.
- Provided technical assistance to internal employees as a key member of the IT support team, ensuring swift resolution of issues.

Skills

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML, CSS
Frontend: React, Vite, Tailwind CSS, shadcn/ui, Docusaurus, Angular, Sass
Backend: Node.js, Express, Supabase, Auth0, Spring
AI & LLMs: Prompt engineering, LLM integration, OpenAI API, Embeddings, Vector search, RAG
Cloud & DevOps: AWS, Docker, Serverless Framework, GitHub Actions
Databases: PostgreSQL, MySQL, DynamoDB, MongoDB
Developer Tools: Cursor, Git, Postman, Jira, Asana, Notion, Linear

Personal Projects

- geelinsky.com — Personal website and dashboard with authentication, data tracking, analytics, and admin tooling, built with React, TypeScript, Tailwind CSS, shadcn/ui, and Supabase. **Contact for access.**

Client Projects

- wasatchfitz.com — Website for a custom ski boot fitting business
- boltscape.com — Website for a landscaping services company

Education

Texas State University Fall '18
Bachelor of Science Cum Laude
Computer Science Major
Applied Mathematics Minor
